Abstract: The affected entities are subject to the General Provisions of the NESHAP (40 CFR Part 63, Subpart A), and any changes, or additions to the General Provisions are specified at 40 CFR Part 63, Subpart AAAAA. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Form Numbers: None.

Respondents/affected entities: Lime manufacturing plants.

Respondent's obligation to respond: Mandatory (40 CFR Part 63, Subpart AAAAA).

Estimated number of respondents: 68 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 16,300 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,010,000 (per year), includes \$325,000 in both annualized capital/startup or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the respondent burden and cost due to an increase in the estimated number of sources subject to the regulation. This ICR assumes an industry growth rate of one respondent per year, which results in an average increase of three respondents since the last ICR renewal period.
